SMALL ANIMAL AND BIRD LITTER/BEDDING

Green Pet Products offers a new line of premium litter and bedding products – now sanitized with the **PureLite™ Process**. All highly absorbent and extremely effective in controlling odors. Manufactured from renewable, biodegradable resources, our products are safe for small animals and birds.

Introducing a breakthrough for small animal and bird litter/bedding – the **PureLite™ Process** from Green Pet Products.

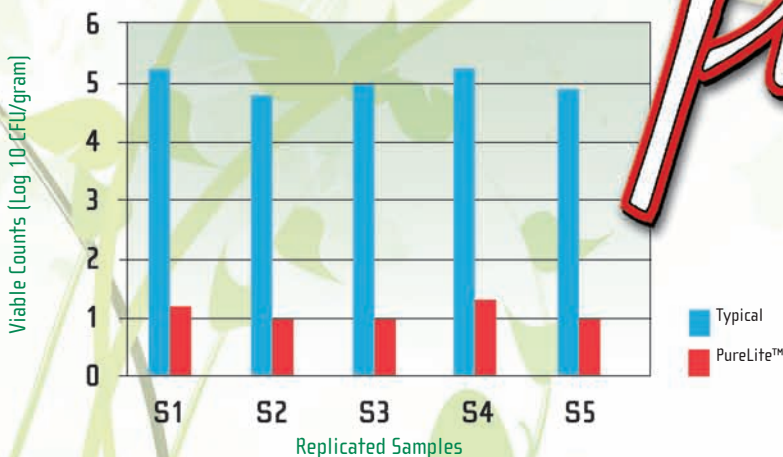

THE pureLITE™ process

- Destroys microbiological content that may be harmful to your pet
- Safety tested for small animals and birds
- Environmentally safe and biodegradable
- Sets a new standard for small animal and bird cage cleanliness
- Provides a cleaner, fresher and healthier environment for your pet's home

PureLite™ PROCESSED

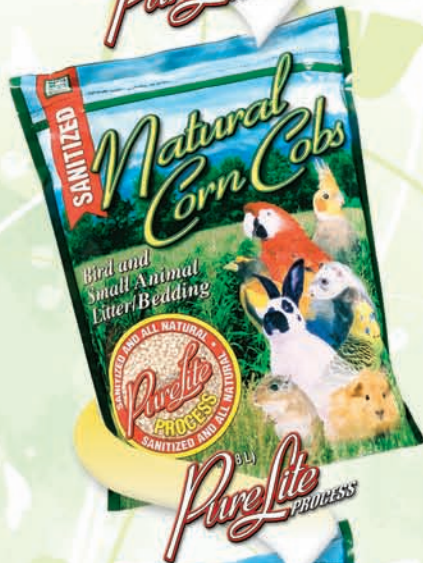

CLEAN-N-COMFY® WITH THE PURELITE™ PROCESS SMALL ANIMAL LITTER/BEDDING

Clean-N-Comfy® utilizes corn cob particles, a renewable natural resource, in an odor-controlling system that renders ammonia and other odors inert while leaving a pleasant, fresh scent. It can be used for ferrets, rabbits, guinea pigs, hamsters, rats, mice, gerbils, hedgehogs, chinchillas and similar small animals.

Superior Odor Control; Pleasant, Fresh Scent; Highly Absorbent; Virtually Dust-Free; Biodegradable/Compostable; Extends Cage Cleaning Intervals; Safety Tested at a Major University

Available in 600- and 1500-cubic-inch consumer packages and 1.33-cubic-foot bulk package.

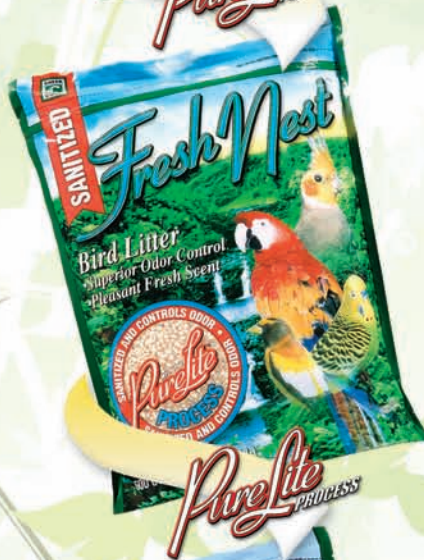

NATURAL CORN COBS WITH THE PURELITE™ PROCESS BIRD AND SMALL ANIMAL LITTER/BEDDING

Natural Corn Cobs is recommended for all small animals and birds and it's virtually dust-free. Made from a renewable resource, Natural Corn Cobs is biodegradable and compostable. It can be used for caged birds and small animals including rabbits, hamsters, mice, rats, ferrets, guinea pigs, gerbils, hedgehogs, chinchillas and similar small animals.

Highly Absorbent; Virtually Dust-Free; Biodegradable/Compostable

Available in 600- and 1500-cubic-inch and 1.33-cubic-foot consumer packages.

FRESH NEST® WITH THE PURELITE™ PROCESS BIRD LITTER

Fresh Nest® utilizes corn cob particles, a renewable natural resource, in an odor-controlling system that absorbs waste, attacks odors and leaves a fresh scent to provide birds a fresher cage and owners a cleaner, more pleasant environment. Fresh Nest® can be used for all caged bird species.

Superior Odor Control; Pleasant, Fresh Scent; Extends Cage Cleaning Intervals; Highly Absorbent; Virtually Dust-Free; Biodegradable/Compostable; Safety Tested at a Major University

Available in 600-cubic-inch consumer package and 1.33-cubic-foot bulk package.

ASPEN SUPREME™ PELLETS PET AND BIRD ALL NATURAL LITTER/BEDDING

Aspen Supreme™ uses a special blend of fresh aspen wood particles — a natural by-product of a renewable resource. Contains no cedar or pine. Aspen is nontoxic to birds. Aspen Supreme™ offers superior odor control and absorbency for small animals, birds and reptiles, providing a drier environment. It can be used for ferrets, rabbits, guinea pigs, hamsters, rats, mice, gerbils, chinchillas and similar small animals.

Superior Odor Control; Highly Absorbent; Safe if Ingested; Resists Mold Growth; Biodegradable; Easy Cleanup

Available in 455- and 905-cubic-inch consumer packages and 40- and 50-pound bulk packages.

Makes a great addition to your current line of pet merchandise. For more information, call 1.800.405.6378 or visit www.GreenPet.com today!
